

# lease a bike

## Just switch to cycling.

Fixed monthly  
rate

Benefits of up to 40%  
compared to buying  
a new bike

Unlimited choice of brands  
and types of bikes

### Ride the bike of your dreams!

Save up to 40% compared to purchasing. Cycling is good for your health. But it's also good for your wallet. A company bike can be up to 40% cheaper than buying one. And why? Because the conversion rate for the bike is deducted from the gross salary, resulting in a tax saving.

#### First things first:

- Tax benefits: The gross taxable income is reduced.
- The workplace commuting allowance can be invoked.
- Includes an all-round insurance package.
- Would you like to purchase your bike after 36 months? We will be happy to submit an offer to you on request at the end of the contract.
- Take advantage of our network of over 5,000 bike dealers.
- Beat the traffic jams and get fit!

#### It's as easy as this:

Sign up via the link provided by your employer.

Once your employer has approved your registration, you receive an order code.

Take your order code to the bike dealer and pick a bike of your choice, together with an all-round insurance package.

Once you have accepted the addendum to Contract of Employment online, you're free to cycle off on your new bike immediately. Let's ride!

## All-round protection packages

Now  
new!

Basic	Premium	All-inclusive
 Wear budget up to € 75 per year  recommended for: Bikes up to € 1,000	 Wear budget up to € 200 per year  recommended for: Bikes up to € 2,500	 Wear budget unlimited  recommended for: Bikes from € 2,500

Our all-round protection packages provide optimum protection for your company bike against theft, damage and wear and tear. Due to the annual inspection included in the price and the Europe-wide mobility guarantee including 24/7 roadside assistance, you are always safe on the road.

## Ride the bike of your dreams!

Assumed gross monthly salary: € 3,000, selected all-round protection package: Basic, Tax class: 1
