

lease a bike

Fixed monthly
rate

Benefits of up to 40%
compared to buying
a new bike

Unlimited choice of brands
and types of bikes

Ride the bike of your dreams!

and save up to 40% compared to purchasing. Cycling is good for your health. But it's also good for your wallet. A company bike can be up to 40% cheaper than buying one. And why? Because the conversion rate for the bike is deducted from the gross salary, resulting in a tax savings.

First things first:

- Tax benefits: The gross taxable income is reduced.
- The workplace commuting allowance can be invoked.
- Includes an all-round insurance package .
- Would you like to purchase your bike after 36 months? We will be happy to submit an offer to you at the end of the contract.
- Take advantage of our network of over 3,000 bike dealers.
- Beat the traffic jams and get fit!

It's as easy as this:

Sign up via the link provided by your employer.

Once your employer has approved your registration, you receive an order code.

Take your order code to the bike dealer and pick a bike of your choice, together with an all-round insurance package.

Once you have accepted the addendum to Contract of Employment online, you're free to cycle off on your new bike immediately. Let's ride!

All-round protection package

most common choice

Basic	Standard	Premium
 <p>Wear budget up to € 75 per year</p> <p>For every type of bike</p>	 <p>Wear budget up to € 150 per year</p> <p>For every type of bike</p>	 <p>Wear budget up to € 200 per year</p> <p>For every type of bike</p>

An all-round protection package is obligatory for every company bike. In addition to the wear and tear budget, each package includes damage protection and a mobility guarantee. There is no personal excess. Furthermore the costs of an annual UVV Check are covered by the maintenance package.

Ride the bike of your dreams!
